We are SUTO iTEC

Be smart. Measure it.

We are SUTO iTEC

Pioneers in Compressed Air and Gas Measurement and Monitoring

- ▶ Leader and trusted global partner
- ▶ Wide range of compressed air and gas measurement solutions
- ▶ Cutting-edge and reliable measurement technology
- ▶ Outstanding service and solutions
- ▶ Deep knowledge, large customer base and an innovative R&D

Thomas Fischer
Founder

2005 Foundation

150+ Employees

100+ Countries

1100+ Customers

100% Quality Service

Atlas Copco Group

SUTO iTEC – Part of the Atlas Copco Group since 2025

SUTO iTEC has been part of the Atlas Copco Group since 2025, strengthening our innovation, global reach and long-term stability.

By combining our measurement expertise with the Group's resources, we deliver even more value to our customers.

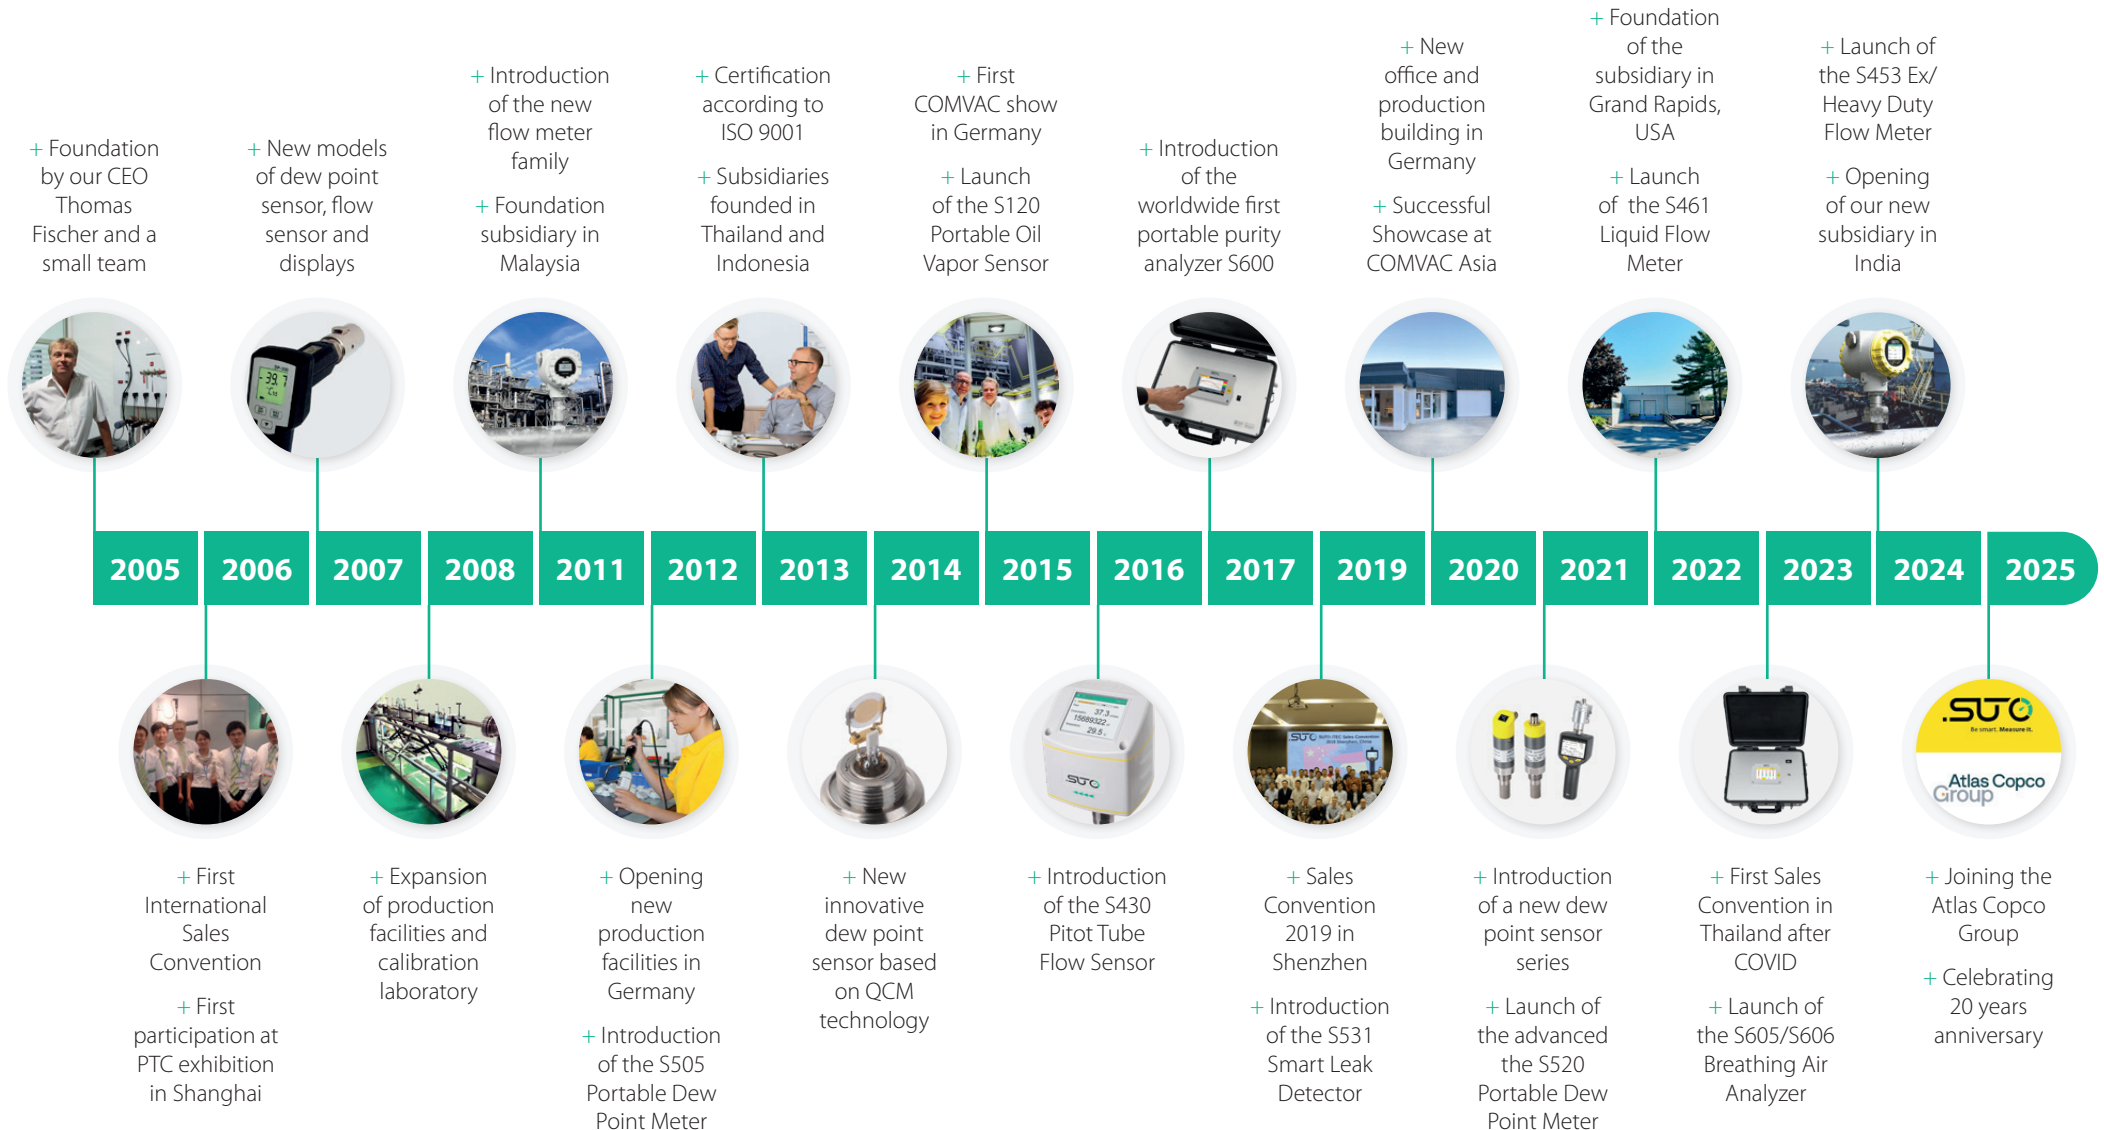

- ▶ Stronger innovation and R&D
- ▶ Broader global support
- ▶ Enhanced capabilities and reliability

SUTO iTEC operates as a separate company with the same brand, products and teams.

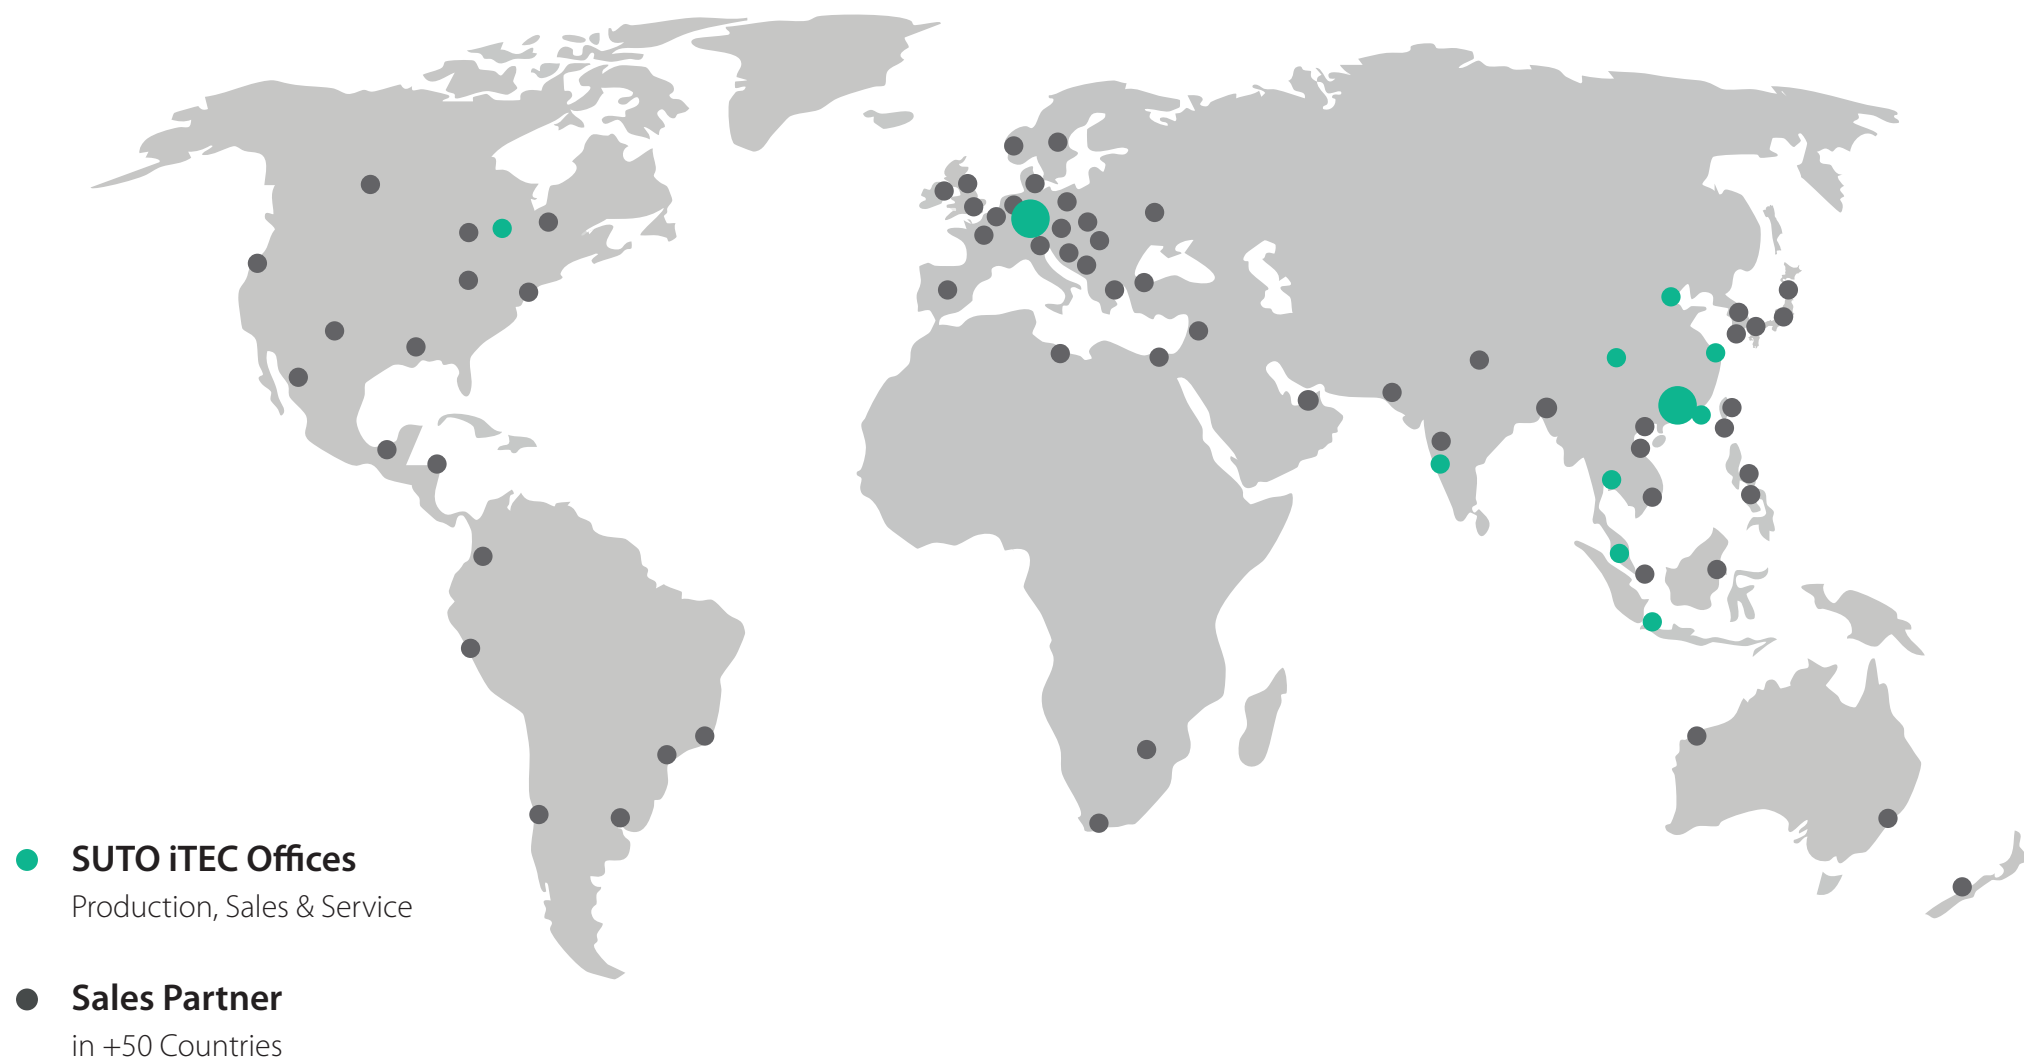

■ Part of the Atlas Copco Group

Our Story

Worldwide Presence

Our Product Portfolio

Flow Meters for
Compressed Air & Gases

Dew Point
Sensors

Leak
Detection

Air Quality
& Purity

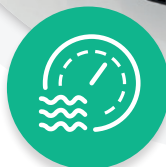

Monitoring
Software

Displays /
Data Logger / IoT

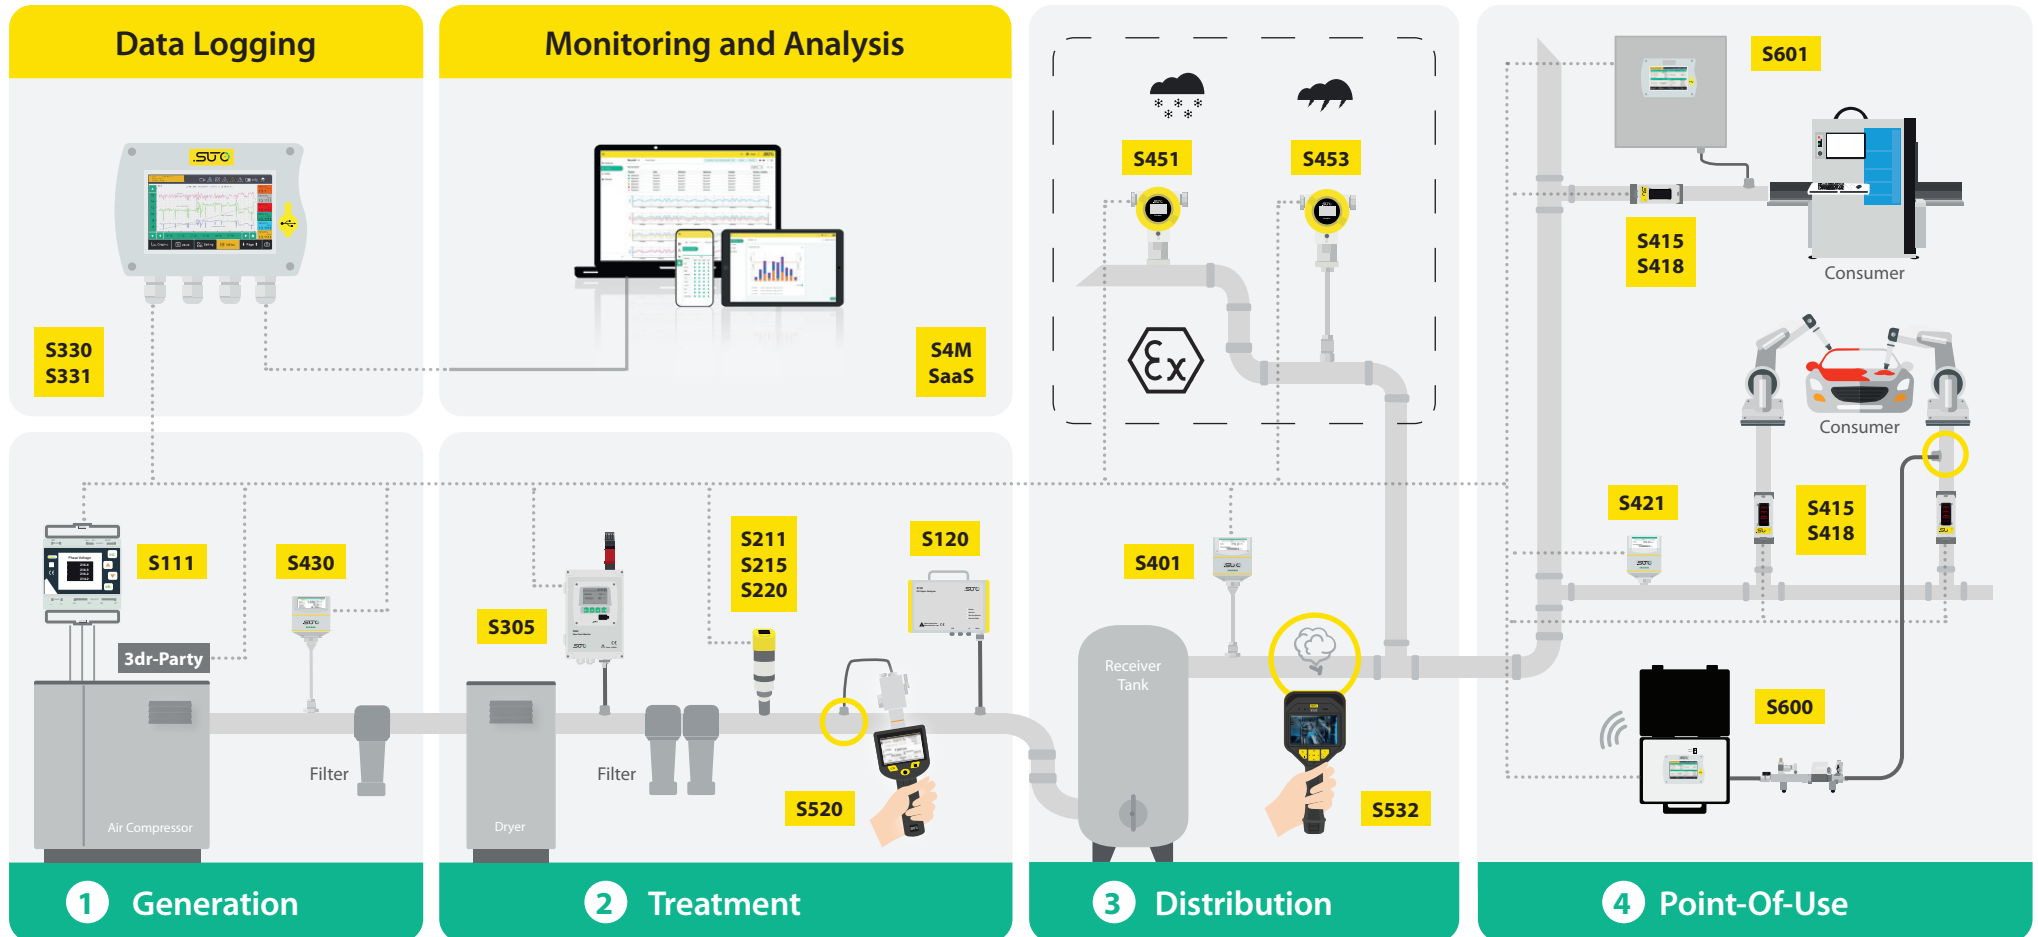

Flow Meters
Liquids & Steam

Energy Meter
Other Sensors

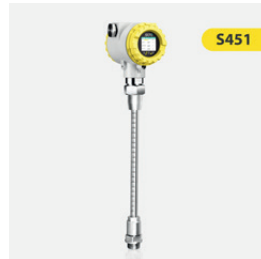

Complete Monitoring System

Our Product Portfolio

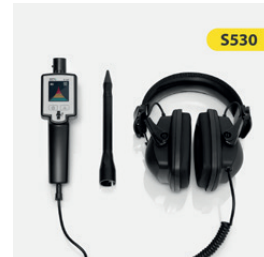

Flow Meters for Compressed Air & Gases

Dew Point Meters

Leak Detection

Displays / Data logger / IoT

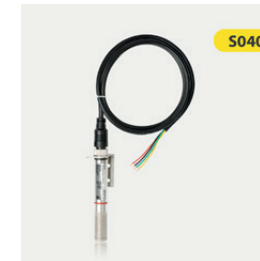

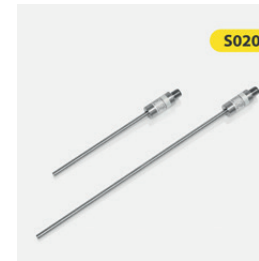

Our Product Portfolio

Air Quality

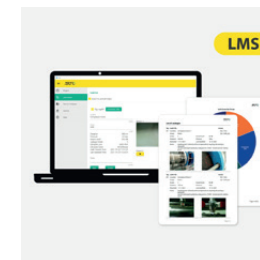

Energy Meter and other Sensors

Flow Meters for Water, Liquids & Steam

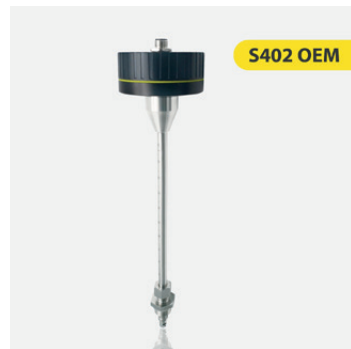

Application Software

Our OEM Product Portfolio

Flow Meters for Compressed Air & Gases

Dew Point Meters

Our Services

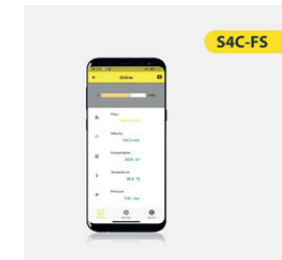

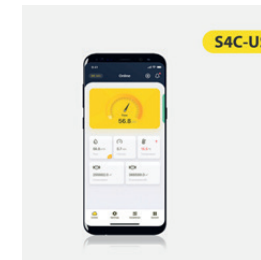

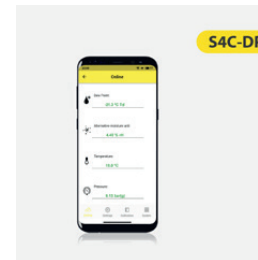

(Re-) Calibration Service

- ▶ Dew Point Meter, Flow Meter, Oil Vapor and Particle Calibration
- ▶ Own laboratories located in Germany, Hong Kong and China
- ▶ Minimize uncertainty and ensure accuracy

Free Android and iOS Apps

- ▶ Our free Android and iOS Apps help to easily configure and monitor SUTO iTEC flow sensors, dew point meters and the ultrasonic water flow meter S461.

Training Center

- ▶ We deliver fresh and nutritious knowledge about compressed air, gas and liquid measurement and monitoring.

Exchange Service

- ▶ Optimization of sensor recalibration process
- ▶ Reducing the costs and furthermore allowing constant and reliable measurements

Our Applications

Air Quality & Purity Monitoring (ISO 8573)

**Process Control
& Production
Reliability**

**Leak Detection &
Loss Reduction**

**Compliance, Certification
& Documentation**

**Reliable and efficient
compressed air and
gas supply in industrial
applications**

**Cost Allocation &
Sustainability Reporting**

**Maintenance,
Troubleshooting &
System Diagnostics**

**Energy Management
& Consumption
Monitoring**

Our Industries

Our Customers

Our Promise

"We measure, monitor and analyze flow, consumption and purity of compressed air, gases and liquids in the most time-efficient, reliable and precise way."

Expertise

1

With a team of highly skilled professionals and over 20 years of experience we bring expertise and industry knowledge to every project.

2

Innovation

We are pioneers in compressed air measurement by rethinking traditional methods and reaching new levels of time-efficient measurement.

Sustainability

6

We strive to develop and promote sustainable measurement and monitoring solutions that minimize waste, energy consumption, and environmental impact.

3

Precision

We prioritize precision in all our solutions. We strive to provide accurate and reliable data to ensure optimal performance and efficiency.

Quality

5

We are committed to providing the highest quality products and services. Our solutions and processes undergo testing and continuous reviews to ensure ongoing improvement in customer satisfaction.

4

Customer Focus

Customer satisfaction is at the heart of everything we do. We are dedicated to understanding our customers' unique requirements and providing tailored solutions and outstanding services.

Be smart.
Measure it.
